

Kossi Edem Emile D. Aholou

Project Manager | Energy, Construction and Community Programs

Edmonton, Alberta, Canada • aholou.emile09@gmail.com • linkedin.com/in/kossi-edem-emile-d-aholou • oltavia.com
Permanent resident of Canada • Bilingual English and French • Valid driver's licence • Open to relocation

PROFESSIONAL SUMMARY

Project manager with an electrical engineering degree assessed by WES as equal to a bachelor's and master's, and 5+ years of experience delivering energy, construction and community programs in Togo and Canada. Track record of coordinating stakeholders, preparing project documentation and status reports, managing risk and keeping budgets and schedules on track. Cut project completion times by at least 15% and reduced budget overruns by 15%. Working toward the PMP designation.

CORE COMPETENCIES

Project coordination: Project initiation and documentation, scheduling, budgets and cost estimates, risk management, procurement support

Reporting and relationships: Monthly status reports, client and partner relations, consultant and contractor coordination, bilingual communication

Tools: MS Project, Primavera P6, MS Office (Word, Excel, Outlook, PowerPoint)

PROFESSIONAL EXPERIENCE

Founder | Xodyia

September 2026 – Present

Edmonton, Alberta

- Started a new company from incorporation to launch: website requirements and follow-up with the developer, prospecting plan, product demos and first client pilots

Development Agent | Réseau Santé Alberta

October 2024 – Present

Edmonton, Alberta

- Coordinate program schedules, stakeholder communication and progress reporting across multiple communities in central Alberta
- Prepare correspondence and documentation for partner review, with limited direction

Construction Project Manager | Desco Architectural Firm

January 2023 – April 2024

Lomé, Togo

- Coordinated stakeholder communication across clients, consultants and internal teams to support timely decision-making throughout the project lifecycle
- Prepared project initiation, planning and closeout documentation, and reviewed vendor proposals to support procurement decisions
- Identified and managed project risks, and prepared monthly status reports for clients
- Coordinated contractors and consultants and followed budgets closely, reducing budget overruns by 15%

Engineering Manager, Energy Transport & Distribution | CH2000

January 2021 – December 2022

Conglomerate Horizon 2000 • Lomé, Togo

- Directed and coordinated teams of 20 to 30 people across active projects, keeping sites aligned
- Reduced project completion times by at least 15% by streamlining scheduling and status reporting
- Reviewed technical drawings and specifications to track deliverables against approved plans

Project Coordinator, Solar Energy | ARESS Togo, solar subsidiary of CH2000

January 2019 – December 2020

Lomé, Togo

- Coordinated solar energy projects, including cost estimates, resource planning and risk management
